Master of Computer Applications (MCA)

GPA 7.05

Languages

Marathi ((Native))

English (B2)

Hindi (B2)

Work Experience

Software Engineer

Mar 2022 - Present

[Sport Alliance GmbH](#) | Munich, Bavaria, Germany

My responsibilities as a developer was maintaining one of our products called Magicline, MySports which are a Gym management software which uses ReactJS, Typescript, Mobx among others. Later helped build a developer integrations dashboard entirely for other developers to configure the properties for the api's they consume.

- ReactJS, Material UI, Typescript, Mobx, Reat Hook Form, TanStack Query, Vite

Sr. Frontend Engineer

Jan 2017 - Feb 2022

[Raw Engineering](#) | Vasai Virar, Maharashtra, India

Worked for a product Built.io which was a Backend as a Service (BaaS). My responsibilities was entirely maintaining the frontend for it. Later transitioned into a senior role and took upon the responsibility for its new clients The NBA. I lead and architected an entire admin dashboard for the NBA using ReactJS, Redux and Typescript. Also worked on a SDK called OPiN which is embedded in the NBA and the F1 websites, built using Typescript.

- ReactJS, Typescript, AngularJS, NodeJS, Redux, HTML & CSS
